

## AS2050-00

4" Conventional Base

AS2050-00

AS2051-00

## AS2051-00

6" Conventional Base

### Standard Features

- Designed for use with all Avenger analog sensors
- Available in 4 and 6 inch models
- Contains a security locking tab for tamper protection

### Operation

The AS2050 & AS2051 Series is designed specifically for use with AVENGER Conventional Models AS2032 Photoelectric Smoke Detector, AS2041 Photoelectric Smoke Detector w/heat, or AS2020 & AS2021 Fixed Temperature / Rate-of-Rise Heat Detector.

The Base is electronics free featuring a plastic tamper-lock lug. Each base is equipped with a resistor. Refer to the chart (below) for additional specifications. The AS2050 base is a 4" version of the AS2051 6" base.

### Technical Specifications

**Alarm Current:** 93mA (136mA @ 33V max.)

**SLC Loop Idle Current:** 110  $\mu$ A

**Compatibility Identifier:** HB-3
